

ENVIRONMENTAL POLICY

Hungrana Ltd. is a reliable supplier of food, feed and other industrial products and fuel alcohol production of international standard to users from the food or feed industry, and industrial users.

In its business practice, Hungrana Ltd. is committed to enforcing the consideration of environmental aspects. We believe that efficient production practices are consistent with effective environmental protection. We are committed to using environmentally friendly technologies and producing environmentally friendly products. Our goal is to contribute to sustainable development through our responsible actions as part of our daily business activities.

Hungrana Ltd. carries out its activities taking into account ecological aspects in such a way as to ensure the efficient use of renewable natural resources for the purpose of sustainable development.

In the course of its activities, Hungrana Ltd. constantly strives to prevent environmental pollution and improve its environmental performance, within this framework it places emphasis on the following:

- *compliance with legal requirements, limit values and stakeholder requirements,*
- *energy, water and chemical savings per unit of product,*
- *avoiding unpleasant effects on the working and living environment, keeping the risks of environmental effects low, preventing environmental pollution, continuously reducing the amount of liquid and solid waste generated in production processes,*
- *constant communication with stakeholders.*

In the course of its decisions, Hungrana Ltd., places great emphasis on learning about the environmental impacts of its new investments and developments prior to the implementation, strives to comply with its environmental objectives and reduce its emissions during the implementation and operation of the investments.

The employees of Hungrana Ltd. are familiar with the Company's environmental policy and their activities are in line with all its aspirations.

In order to implement continuous development and pollution prevention and to comply with the best available techniques (BAT), Hungrana Ltd. formulates goals and activities, and annually reviews the rules and operation of its environmental management system to ensure its validity and continuous improvement for the organization.

Hungrana Ltd. is constantly working to keep the environmental impacts of production within a regulated framework by applying the environmental management system according to the MSZ EN ISO 14001: 2015 standard.
