

FEED SAFETY POLICY

Hungrana Ltd. is a reliable supplier of food, feed and other industrial products with international quality products, both to the food and feed industry, as well as to industrial users and customers.

The management of Hungrana Ltd. is committed:

- to maintain the market position of the Company,
- to extend the developed and applied feed safety policy to all the Company's activities, to set quality objectives and to continuously improve its activities that meet the current needs of the partners,
- to comply with and enforce the laws and other requirements affecting and regulating the activities of the Company,
- to create and maintain high quality products and services that meet growing market demands and expectations.

The raw material of Hungrana Ltd.'s products is maize, which is certified free of genetic modification, and its traceability and documentation is ensured. Hungrana Ltd. strives to establish a long-term relationship with the suppliers and commercial partners of the raw material, through which it can increase the trust and satisfaction of the Company's customers and all organizations related to the Company. The results coupled with disciplined teamwork ensure constant development for Hungrana Ltd.

Our mission in the field of feed products is **quality and maximum customer satisfaction**.

The Company ensures the continuous development of the equipment and the working environment, supports the professional development of the employees in order to sustainably improve the efficiency of the system. The primary goal of the development, maintenance and continuous review of the feed safety system is to supply all partners of Hungrana Ltd. with high quality products by the agreed deadline.

It also aims to ensure that any complaints and customer signals are handled quickly and efficiently in all cases, and that effective preventive and corrective measures are taken at all times.

The employees of Hungrana Ltd. are familiar with the Company's feed safety policy and the regulations of the applied feed safety systems, and their activities are in line with all its efforts.

Hungrana Ltd. is constantly working to improve the quality of the produced products in order to provide the best possible quality feed and the highest possible quality of service to its partners. It justifies these efforts by complying with the requirements of quality management according to the MSZ EN ISO 9001: 2015 standard, food and feed safety according to the MSZ EN ISO 22000: 2018 and **EFISC** standards, and the **EFISC-GTP** standard.
